## Professional Summary

Front-End Developer with 2+ years of hands-on experience in React, TypeScript, and Node.js.

Adept at building scalable web applications, integrating REST APIs, and following Agile methodologies. Strong background in UI/UX, performance optimization, and test automation using Cypress.

## Technical Skills

- Languages: JavaScript, TypeScript, HTML, CSS, C#, Python
- Frontend: React, Next.js, Bootstrap, SASS, Flutter
- Backend: Node.js, ASP.NET Core, Firebase
- Tools: Git, GitHub, Cypress, Google Analytics, Azure
- Methodologies: Agile, Scrum

## Work Experience

### TeknoDev | Antalya, Türkiye

#### Frontend Developer (Aug 2024 – Jun 2025)

- Built an AI-powered website builder with 200+ modular, drag-and-drop React components featuring live editing and dynamic customization (color, size, content, layout).
- Developed global CSS architecture with JS-based class handling, custom theme system, version control, and RBAC for scalable design flexibility.
- Optimized performance with React.memo, useCallback, useMemo, and lazy loading; managed global state via Context API.
- Delivered responsive, accessible, pixel-perfect UIs with SCSS, integrated REST APIs with robust loading/error handling.
- Contributed across the full Agile lifecycle, including sprints, stand-ups, and code reviews.

#### Intern Full-Stack Developer (Jun 2023 – Oct 2023)

- Worked in both frontend and backend on internal projects.
- Conducted unit tests with Cypress.
- Used Google Analytics and GitHub for tracking and collaboration.
- Gained team and independent working experience using Scrum.

## *Rootek AR-GE | Antalya, Türkiye*

### **Frontend Developer (Oct 2020 – Mar 2021)**

- Designed and developed UI of the website using JavaScript, HTML, CSS, and Bootstrap.
- Collaborated in a team and used GitHub for version control.

## **Education**

AKDENİZ UNIVERSITY – BBSc, Computer Science and Engineering (Sep 2019 – Jun 2024)

## **Academic & Personal Projects**

### **Senior Design Project – Restaurant Comparator Web App | 2024**

- Built with React, TypeScript, and SASS; backend powered by Firebase.
- Implemented scraping with Python (BeautifulSoup, Selenium).
- Compared delivery options and visualized metrics.

### **Mebi Social Media App**

- Full-stack social media app with React frontend, Flutter mobile, ASP.NET Core backend.
- Deployed to Azure, managed CI/CD with GitHub.

### **Teknofest Model Satellite Competitions | 2020 – 2021**

- Developed ground and flight software using Python and C on Raspberry Pi.
- Visualized telemetry with C# Windows Forms.

## **Organizations**

### **Akdeniz Blockchain – Board Member (Feb 2021 – Sep 2021)**

- Conducted blockchain training and participated in Chainlink Hackathon.

### **IEEE Akdeniz Computer Society – Coordination Team (Feb 2020 – Sep 2020)**

- Organized student-industry networking events.

## **International Experience**

### **Work & Travel – The Garage BBQ | Maine, USA (Jun 2022 – Oct 2022)**

- Worked as cashier, runner, and server in fast-paced, multicultural setting.
- Improved English fluency and cross-cultural communication.
